

**REMARKS**

The present application has 28 claims pending, all of which stand rejected in the Final Office Action mailed August 12, 2008. The issues raised in the Final Office Action are:

- Claims 1-28 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-47 of copending Application 10/345,587 in view of U.S. Patent Publication 2004/0088380 to Chung et al. (hereinafter "*Chung*").

A terminal disclaimer is filed herewith to overcome this provisional rejection on the ground of nonstatutory obviousness-type double patenting.

**Conclusion**

In view of the above, Applicant believes the pending application is in condition for allowance.
